

AXIS I7020 Network Intercom

Sleek indoor intercom for clean environments

It's ideal for most indoor environments and features echo cancellation and noise reduction to ensure voices are audible regardless of background noise. With an easy-to-clean surface, it's extensively tested for chemical detergents and can withstand daily wipe-downs with strong cleaning fluids—ideal for healthcare environments. Additionally, this device meets the requirements of ISO 14644-1 to ensure air cleanliness.
