

# Welcome to Axis!

The market leader in network video technology  
with our German subsidiary in Ismaning (near Munich).

# This is Axis

For us, it is about making the world a little smarter and safer. By bringing innovative solutions to the market, we help people to improve security and business performance.

Founded in Sweden in 1984, we invented the world's first network camera. Since then, we have been a driving force in the transition from analog to digital video surveillance.

Today, we offer network-based products for video surveillance, access control, and intercom and audio systems, complemented by intelligent analytics applications and supported by high-quality training at our Axis Communications Academy. We want to make cities safer and more livable. We help companies protect and grow their business – and better understand their customers. To prevent incidents – even before they happen. And to improve patient care – in a safe manner.

We also work hard to develop and pioneer the industry standard for social, economic and environmental responsibility. We are committed to the United Nations Global Compact, and align our strategies and operations with universal principles on human rights, labor, environment and anti-corruption. All this to unite our customers, suppliers and ourselves to work together for a smarter and safer world.

# The Ismaning site

The German headquarters have been located in Ismaning (near Munich) since 2013.

We are incredibly proud of our Axis Experience Center (AEC). We have dedicated a third of our office space to it, so we can demonstrate our products together with partner solutions in a large variety of realistic environments. It gives us and our partners the opportunity to demonstrate the benefits of our broad product portfolio to customers.

Take a look behind the scenes at Axis and experience our latest security technologies live at our Axis Experience Center (AEC) in Ismaning (near Munich).

We look forward to seeing you at our Experience Center.

## Where we work

Axis Communications GmbH  
Adalperostr. 86  
85737 Ismaning, Germany  
Phone: +49 89 3588 17-0

## Route planning

## Parking facilities

Free parking is available in front of our office building. You can park your vehicle immediately after the barrier in the parking spaces with the Axis logo.

# How to find us

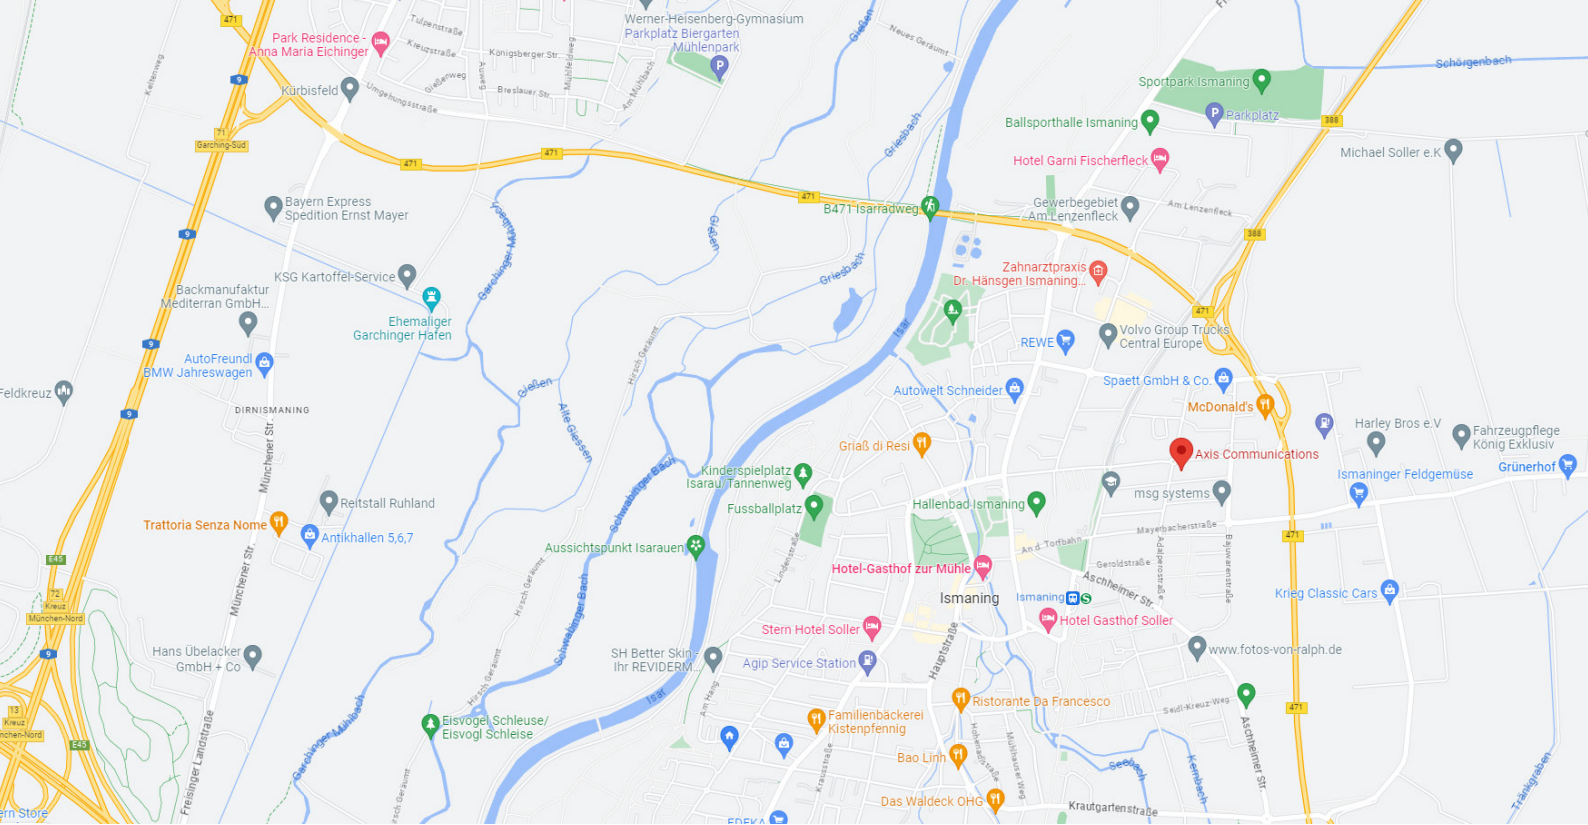

## By plane

### Munich Airport (MUC)

The nearest airport is Munich Airport Franz Josef Strauss (MUC). It is located about 20 minutes by train from the Axis office in Ismaning. If you want to take the S-Bahn, just follow the green S-Bahn sign at the airport until you reach the station. From there, take the S8 in the direction of "Herrsching" and get off at Ismaning. It is about a 5 minute walk to us from there.

▶ [www.munich-airport.de/](http://www.munich-airport.de/)

## By taxi

If you want to take a taxi to the Axis office in Ismaning, you can use any of the taxis available at the airport or train station, or you can call for a taxi from one of the following companies:

- ▶ Taxi München at +49 89 21 610
- ▶ Feringa Taxi at +49 89 900 68 780

All taxis in Germany use a taximeter with fixed kilometer rates, which should be on display in the vehicle. Many taxis offer the option of paying by credit card, but you should still check with the driver to be sure.

## By train

The nearest train station for regional and long-distance trains is the Munich Central Station. From there, you can take the S8 S-Bahn line in the direction of the airport ("Flughafen") and get off at Ismaning.

# Your stay with us

There are several good and inexpensive hotels in Ismaning and the surrounding area. Ask your local Axis host to help you with your reservation, as they may be able to get you a discounted room rate. Some hotels in the area that we recommend are:

**Hotel Zur Mühle**
